TEST CASE PRESENTATION

Three HTML/CSS mini-projects

Restaurant Website • Student Profile • Ame-Tech Electronics

Prepared by: _G . Yaswanth Phani Krishna_
Course / Section: _CSM / Section-1_
Date: _25-10-26_

Project Overview

A summary of the three web development test cases.

01 Restaurant Website

A food-focused webpage with menu cards, dish imagery, About and Contact sections, and a footer.

02 Student Profile

A personal profile page presenting student details, education, hobbies, links, abbreviations, and HTML text examples.

03 Ame-Tech Electronics

A product showcase with electronics cards, images, prices, product search links, About and Contact sections.

Technologies represented: HTML • CSS • Images • Links • Page sections

Test Case 1 — Restaurant Website

Files: Web-dev1.html and styles13.css

- Displays a menu containing six dish cards.
- Uses external images as CSS background images.
- Includes About and Contact sections.
- Provides a footer to complete the page layout.
- Focuses on presenting restaurant food items in a visual format.

Main purpose

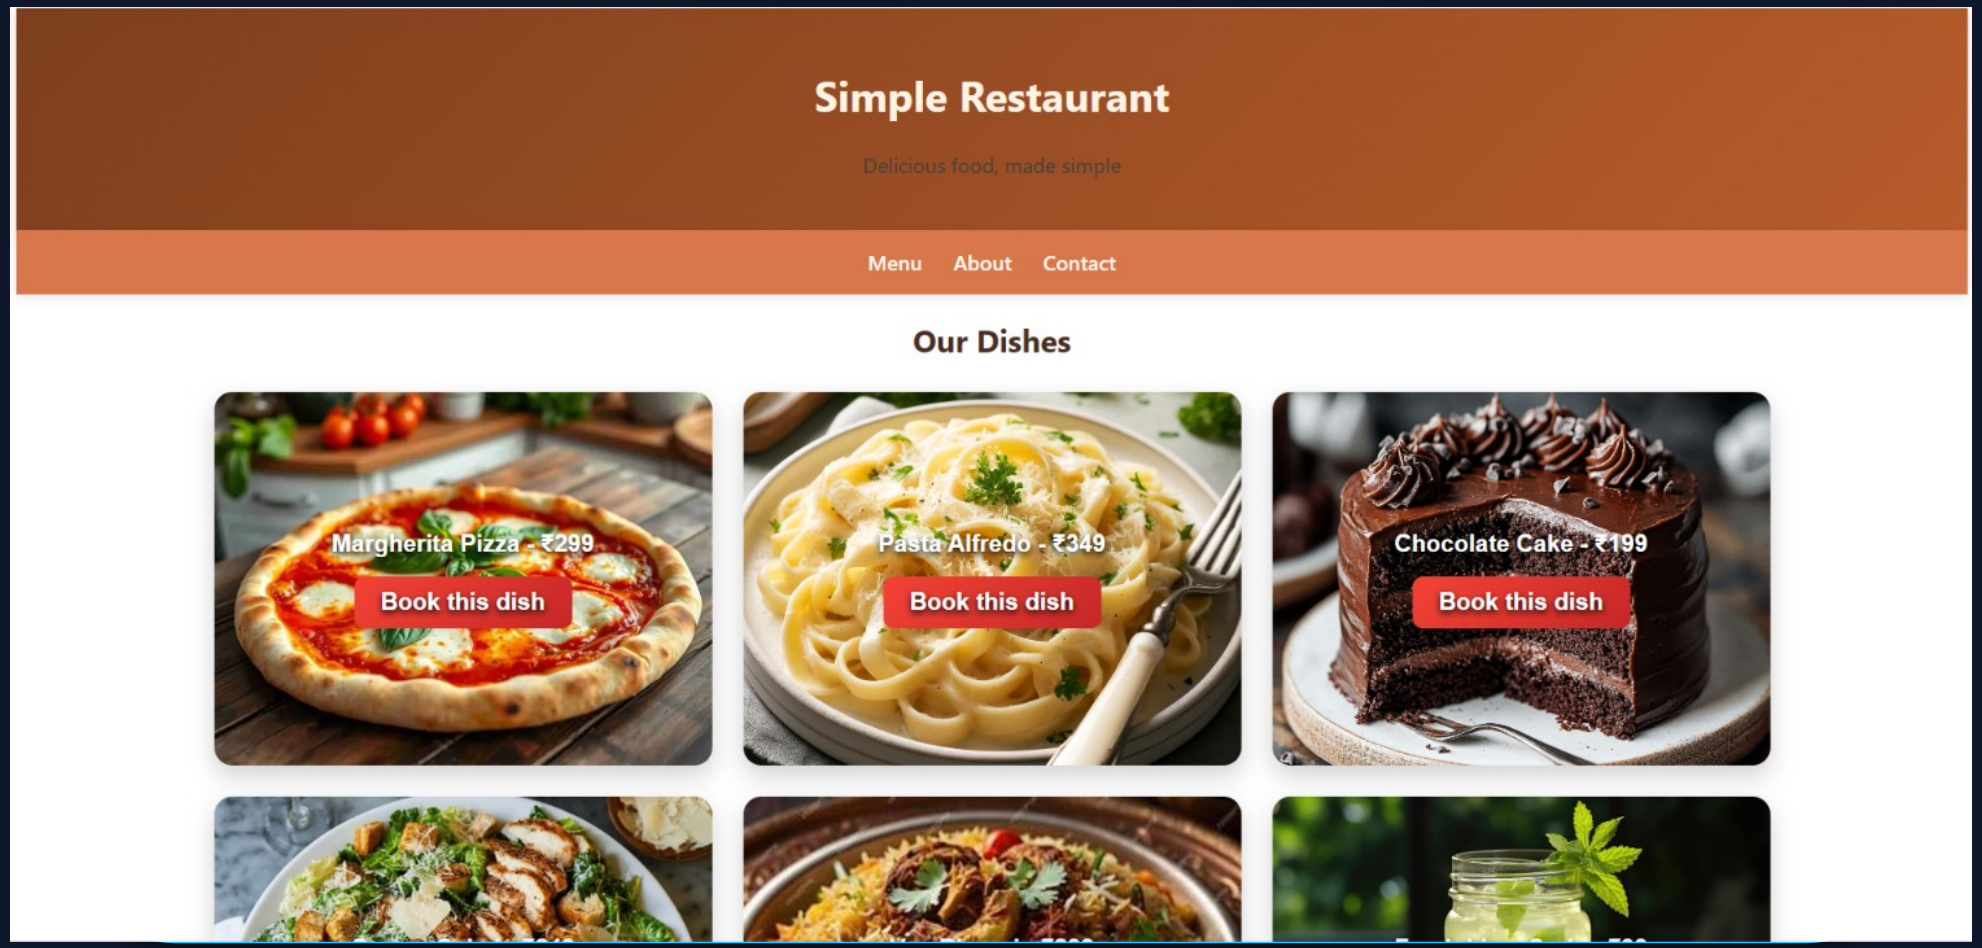

Help visitors browse a restaurant menu and view food options.

Screenshot evidence

Paste a browser screenshot on the next slide.

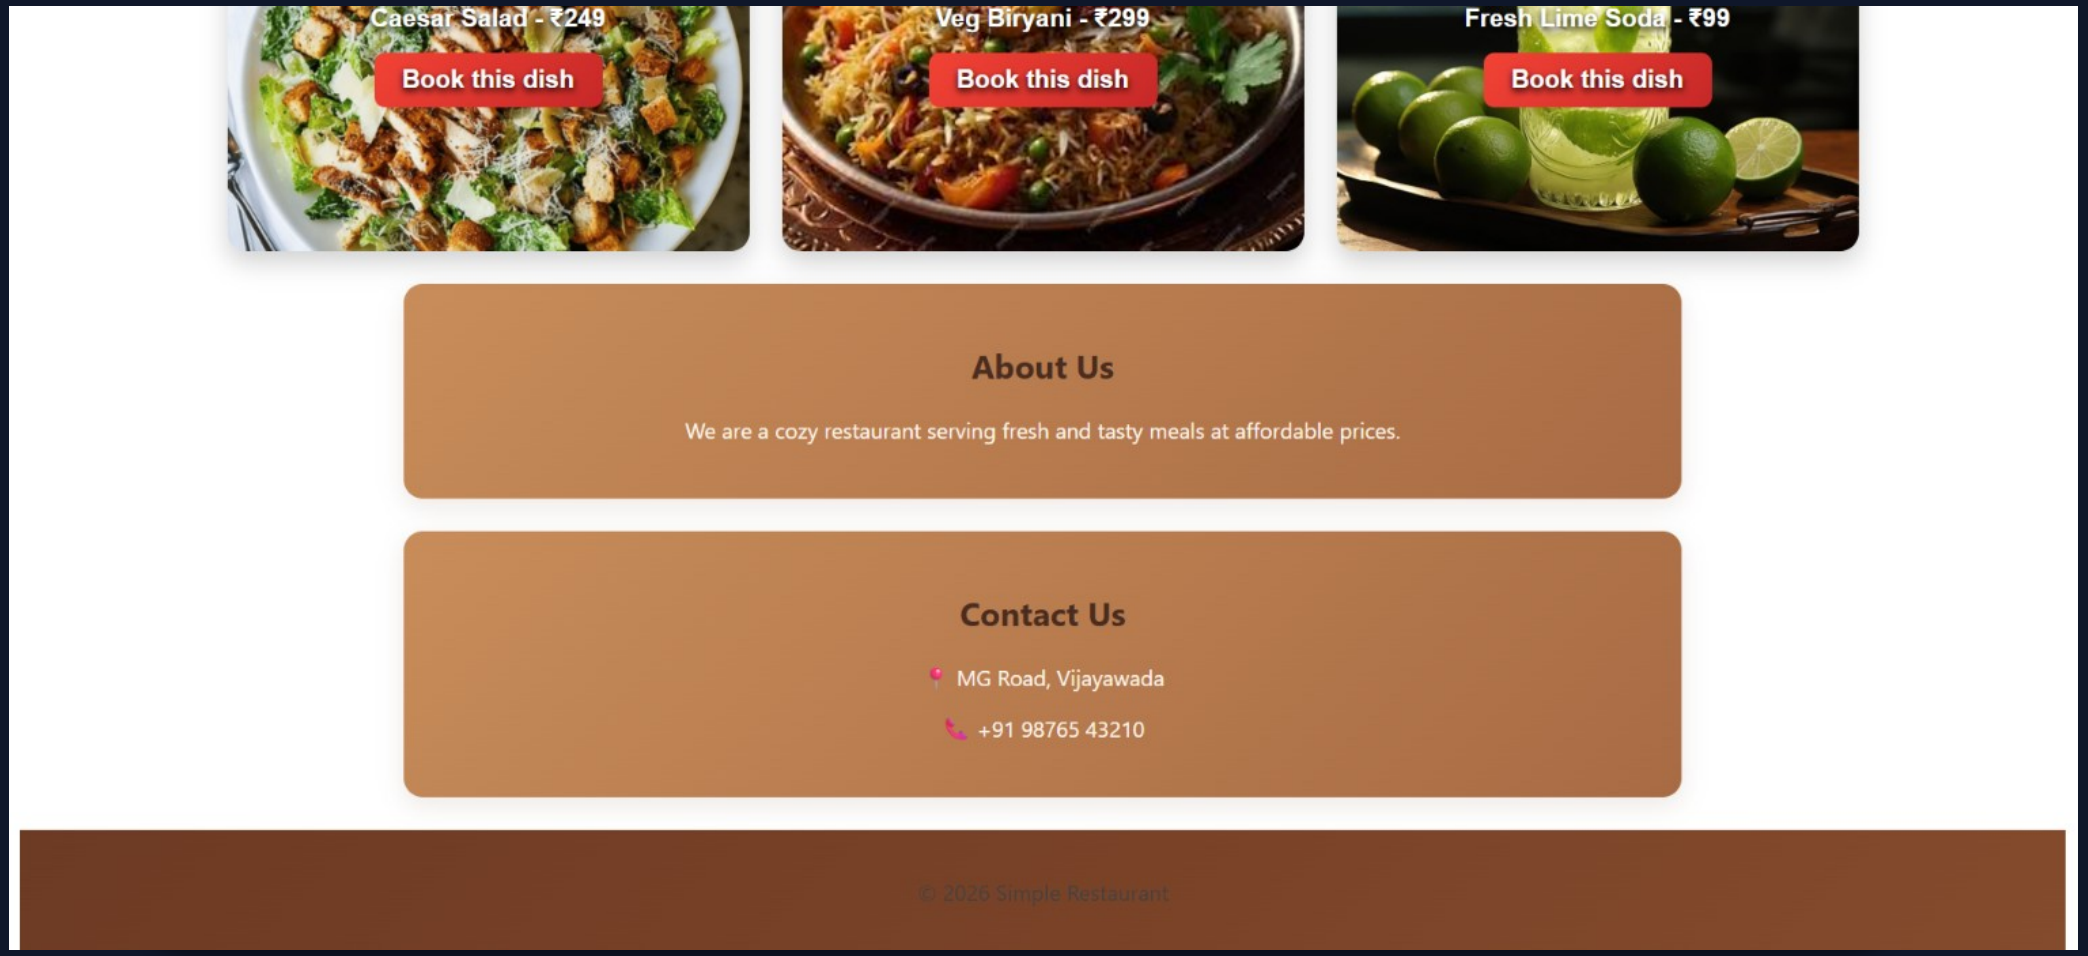

Restaurant Website — Screenshot

Paste a screenshot captured from the browser.

Restaurant Website — Screenshot

Paste a screenshot captured from the browser.

Test Case 2 — My Student Profile

File: Web-dev2.html (internal CSS)

- Introduces the student and displays a profile image.
- Shows education details and hobbies.
- Includes favorite website links and abbreviations.
- Demonstrates bidirectional text and mathematical notation.
- Uses a marquee element as part of the HTML examples.

Purpose

Present personal and educational information in one webpage.

CSS approach

Styling is included inside the HTML file.

Student Profile — Screenshot

Paste a screenshot captured from the browser.

My Student Profile

Introduction

Hello! My name is **G.Yaswanth Phani Krishna**.
I am studying **B.Tech** in *Computer Science Engineering and Artificial Intelligence* at DR.RVR NRIIT DTBU.

My favorite subject is HTML.
I am a first year student.
Earlier I wanted to learn ~~C Language~~ but now I am learning HTML.

Educational Details

- University : DR.RVR NRIIT DTBU
- Department : Computer Science and Machine Learning
- Year : First Year
- Roll Number : 26368

Student Profile — Screenshot

Paste a screenshot captured from the browser.

Test Case 3 — Ame-Tech Electronics

Files: Web-dev3.html and styles.css

- Shows six electronics product cards.
- Uses product images from Unsplash.
- Displays prices for the listed products.
- Includes Amazon search links for product discovery.
- Contains About, Contact, and footer sections.

Main purpose

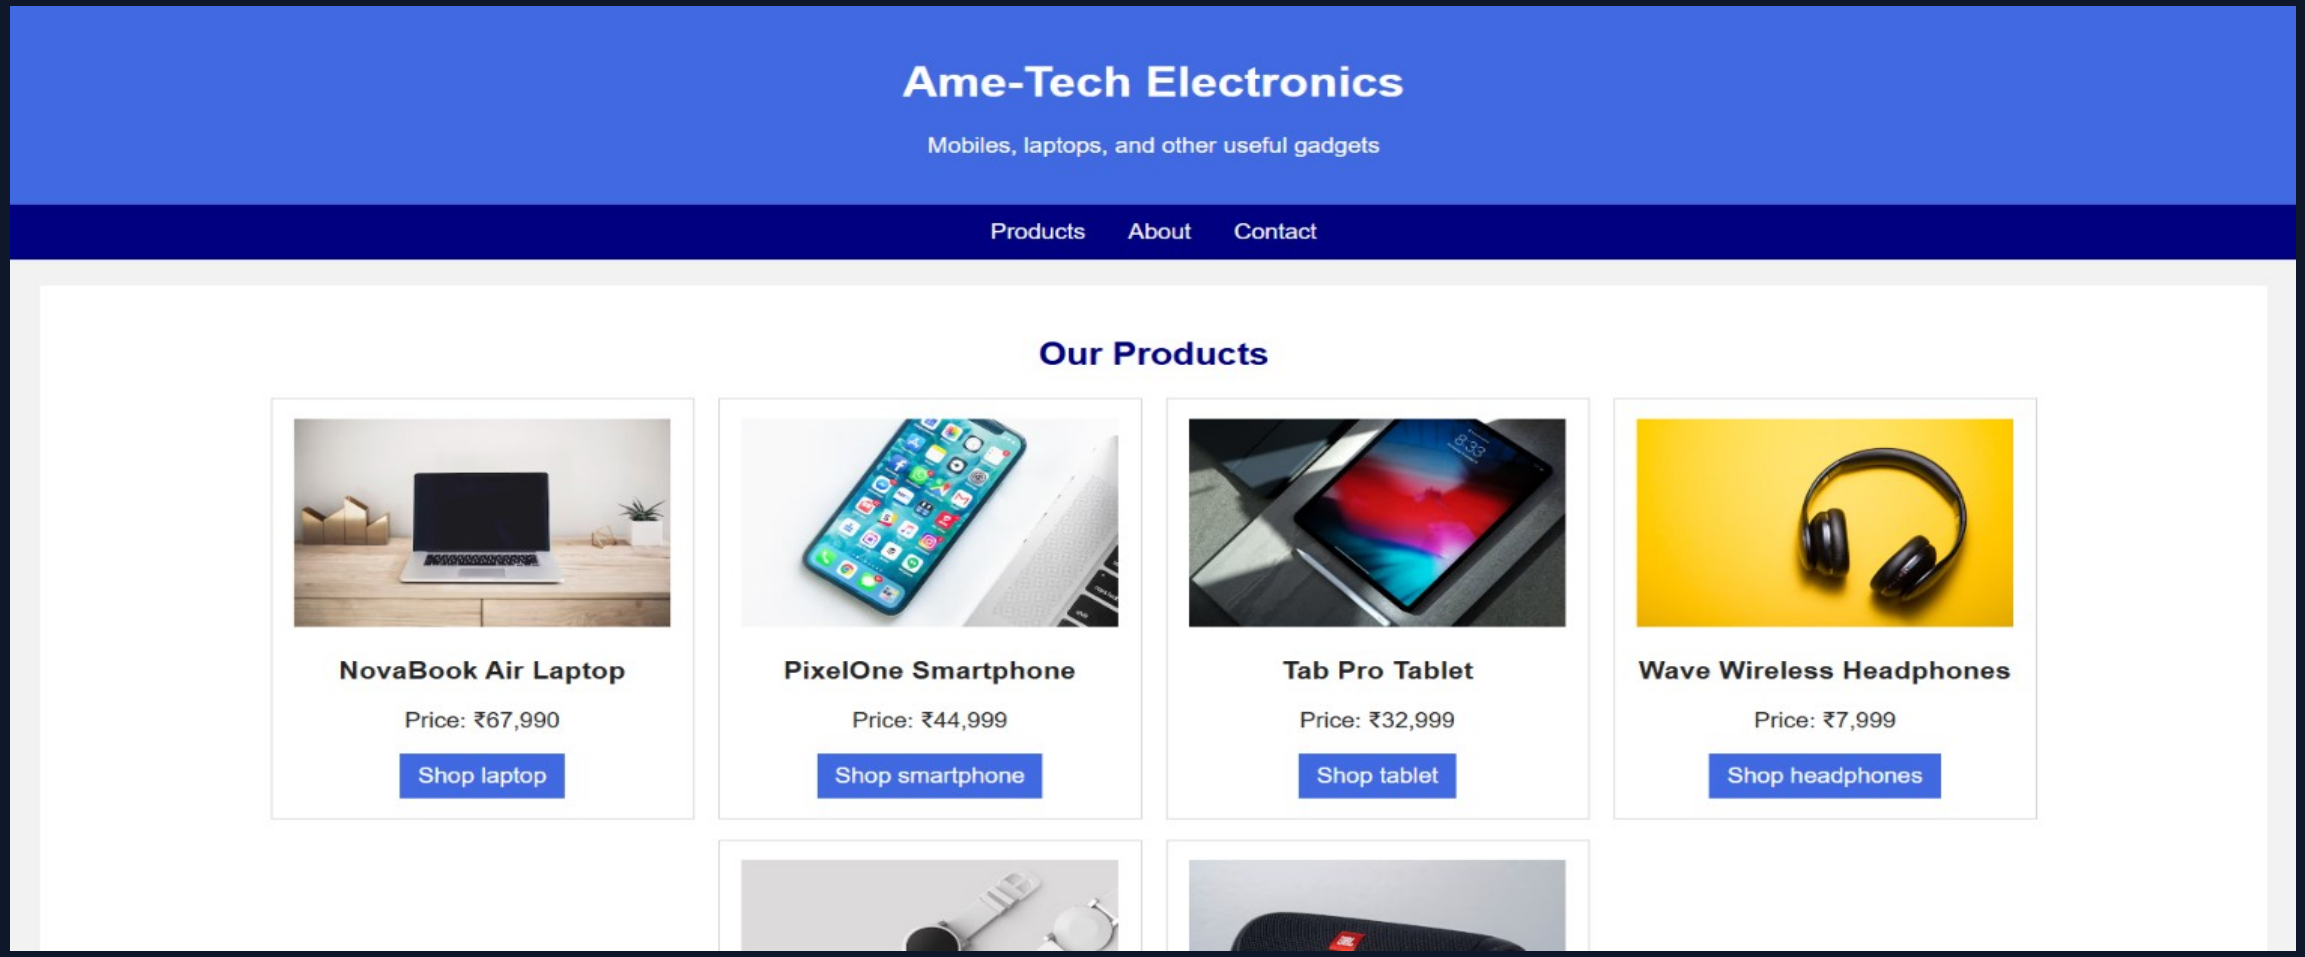

Present electronics products with basic purchase research links.

Page structure

Product cards supported by common information sections.

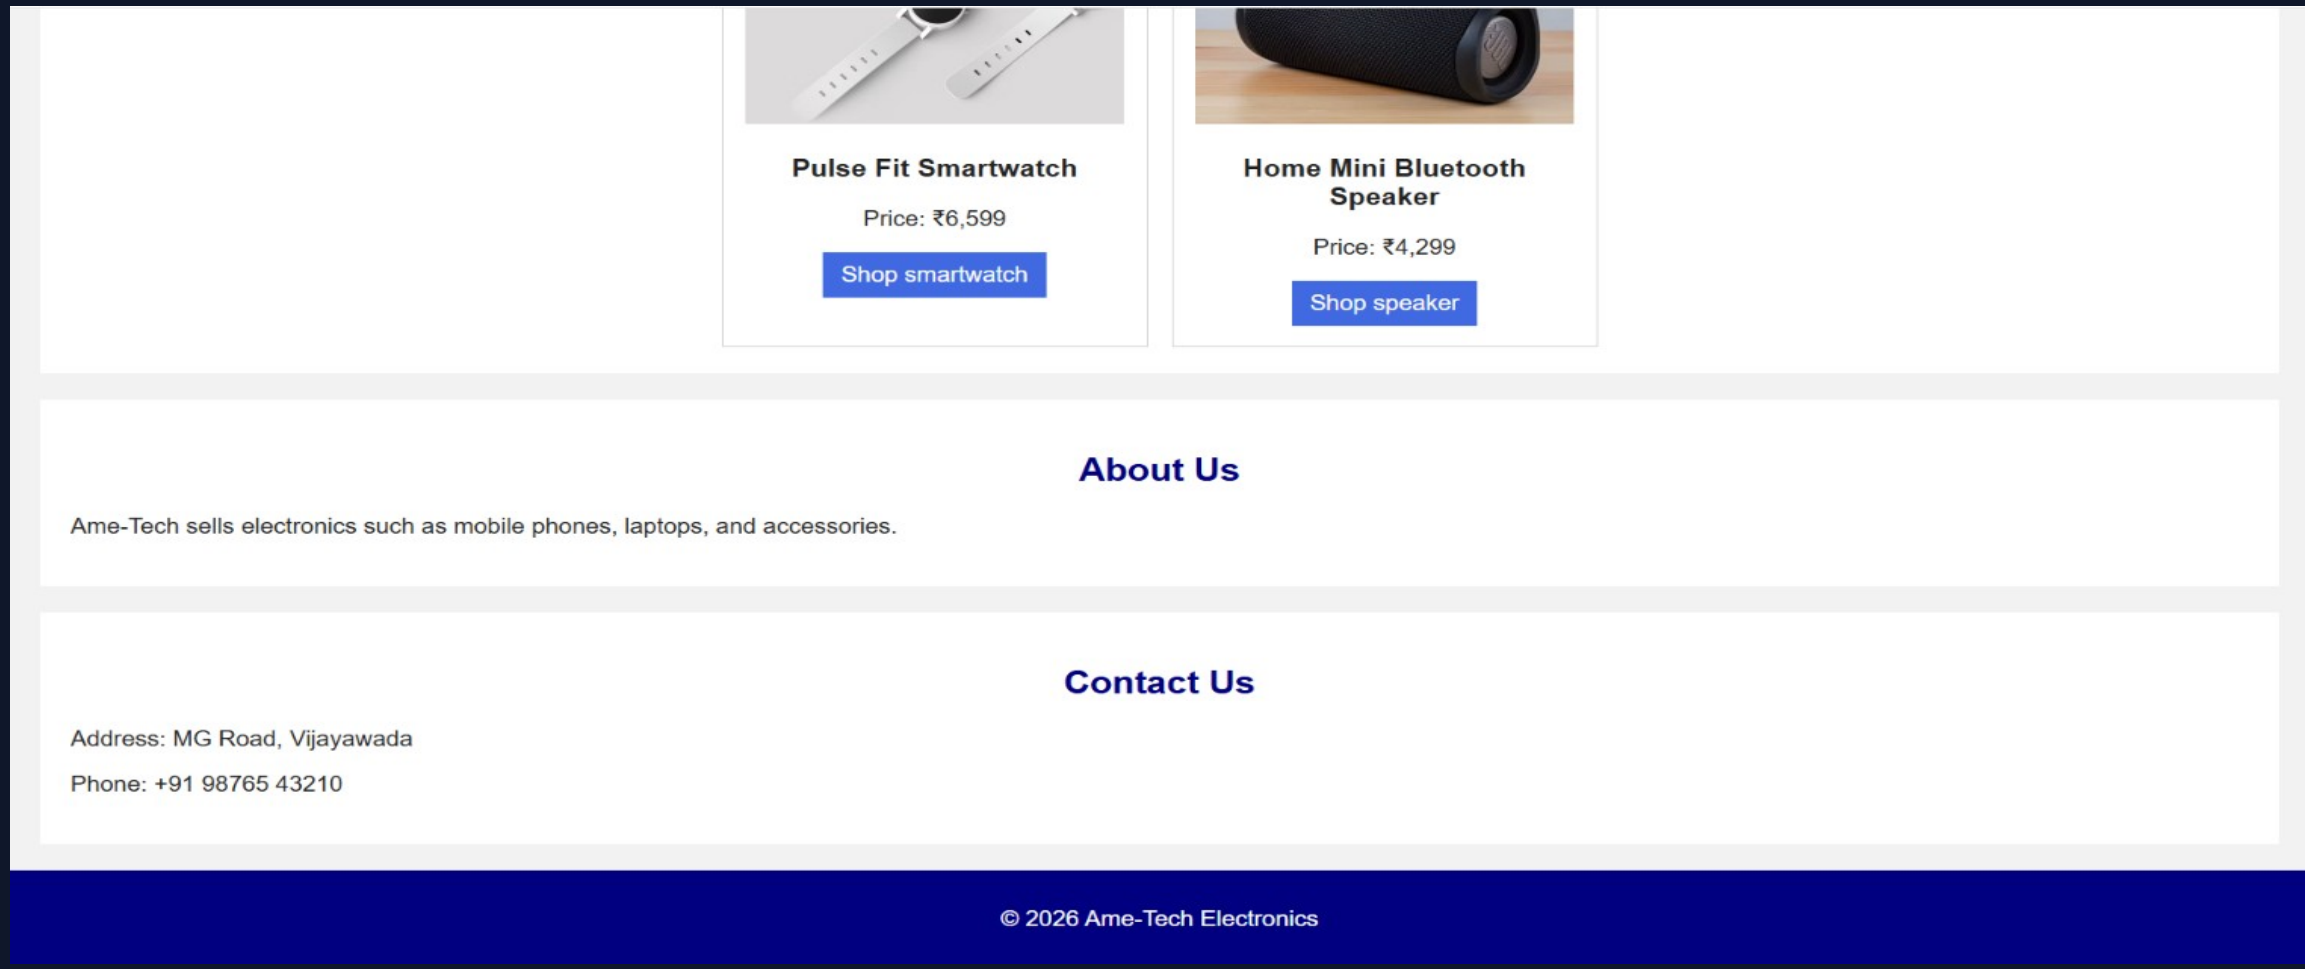

Ame-Tech Electronics — Screenshot

Paste a screenshot captured from the browser.

Ame-Tech Electronics — Screenshot

Paste a screenshot captured from the browser.

Test Case Comparison

Different content goals using core HTML and CSS techniques.

TEST CASE	CONTENT	KEY ELEMENTS
Restaurant	Food menu	6 dish cards, CSS background images, About/Contact
Student Profile	Personal details	Profile image, education, links, HTML text examples
Ame-Tech	Electronics catalog	6 product cards, prices, product search links

Conclusion

Key takeaways from the three test cases.

Content presentation

The projects show how webpages can organize food, personal information, and products.

HTML & CSS

The examples use page sections, images, links, cards, and styling to structure content.

Evidence

Use the three screenshot slides to document how each webpage looks in a browser.

Thank you
